## VISION

To deliver the best logistics services by meeting and exceeding our client's and partner's expectations with exceptional quality and performance. We are committed in providing cost effective and superior service to our clients, valued business to our partners and growth opportunities to our employees.

## MISSION

We strive to be the leading logistics and freight forwarding company in the Middle East: first in quality, first in value, first in caring for our clients by responding to their needs promptly, continuously improving our services and enhancing our employee's, client's and partner's value.

**Milton Shipping & Logistics has more than a decade and a half of logistics experience working with clients to meet their requirements, making us leaders within the freight forwarding industry.**

We are proud to provide specialized services that meet your logistic requirements. Flagged off in the year 2007, in Dubai, the company is very much in the limelight and is in a rapid phase of development, thanks to the diverse and multi-faceted nature of its operations.

With a decade and a half of sales and operations experience in the freight forwarding industry our team is well regarded both locally and globally for our knowledge and commitment. By focusing on Quality, Safety & Integrity, we maintain high standards of efficiency and build & nurture long term relationships with our customers by being their extended arm in carrying out the business effectively. Covering all modes of transport, we bring value and a little something extra to the services you need to meet your logistic demands.

Together with our domestic and international freight forwarding partners, we are able to provide a comprehensive range of related services including cost-effective peripheral offshore trade services. Our focus has been in delivering the best, reliable and prompt service to our clients and associates.

Our services include domestic and international freight forwarding, cross shipment arrangements, import & export customs clearance, warehousing & distribution, overland transportation, project management & consultancy services and many more.

Our experts tailor services to your specific requirements through a host of easy-to-configure options.
